

Franklin Covey® iScribe® Digital Planning Pages and Forms for the Logitech® io™ Digital Personal Pen

Capture everything you write and plan...digitally!

Solutions from Franklin Covey® and Logitech® that work together to optimize your productivity in every way, with more style and innovation than ever before! Now make handwriting an effective tool in the digital world. Everything you write in your monthly planner - daily tasks, notes, appointments - can now be saved and organized on your PC.

iScribe
DIGITAL PLANNING PAGES
For the Logitech® io™ digital pen

First true breakthrough in pen technology in 200 years

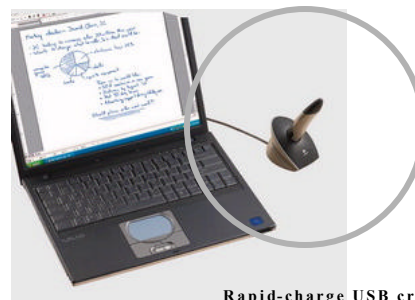

- Simplify and digitize organization. Be more efficient away from your computer
- Add tasks or schedule meetings simply by writing them down
- iScribe® creates the bridge between paper and digital planning!

Features & Benefits

- Digitally Enabled Prioritized Daily Task List - handwritten tasks appear in your iScribe® view and in Microsoft® Outlook
- Digitally Enabled Appointment Schedule - appears in iScribe™ view and in Microsoft® Outlook® calendar
- Digitally Enabled Daily Record of Events - automatically have a digital backup of you handwritten notes, commitments, assignments and journal entries
- io™ Personal Digital Pen Optical Sensor and Processor - Records your handwriting and reads the light dot pattern on the page to know precisely where in your planner you are writing. Store up to 40 pages in memory between transfers to your PC.
- Personal Digital Pen Rapid-charge USB cradle - Transfer digitized data to your computer.
- Ink cartridge - Write like you normally do with pen, ink and planner.
- Battery - Write up to 25 pages between recharges. Remove cap to turn pen on and replace to save battery.
